Unclassified
Situational Awareness:

- Bylaw now equipped the new large fines for open fires, noise and obstructing roadways. **Bylaw will be working closely with OPS to ensure faster enforcement with no need to ID persons for PART 1 offence notice.**
This move is designed to keep OPS officers out of court when this is over, and give officers on scene more leverage with those members of the public who may be argumentative with OPS.
- 10 Trucks left Bank St at Laurier St. location at about 23:00 hrs, 2 went East on 417 and 8 went West towards Arnprior past Hwy 7. This has opened up Bank St. from Laurier to Wellington Ave. Statements from departing truckers, 99% of OPS are respectful and great to deal with- they are worried about "the 1% of officers and the 1% of the Trucker protestors who have infiltrated the trucker convoy"
- Lots of chatter for Covoy members to attend CGRT (Jet Form Park) to support Truckers. Some protest members at this encampment have been identifying themselves as PEACE OFFICERS with homemade badges and identifications. These protestors have been trying to engage officers with similar language as seen with FREEMAN on the LAND individuals.
- Building material (2x4's) have been seen being brought North on Metcalf and O' Connor St. from Albert St.
- Officers are still confused on authority to seize Jerry Cans of gas. These will be seized with lawful authority or if abandoned/voluntarily given to police after members of the public are warned they **MAY** face criminal charges for Mischief to property. Officers **MAY** arrest and seize the evidence (gas can) and release individual unconditionally (officer discretion) after identifying the arrested member. We are not seizing gas cans in the back of vehicles unless RPG is formed that it is evidence to an offence. We are challenging members of the public attempting to aid the commission of an offence. Some push back from FLD Chain of Command concerned about "ordering individuals to effect arrests" which we are not doing from NCRCC but want officers protected if they are questioned on authority for seizing.

- Empty Gas cans are being used as drums and noise making devices (banging them together) instead of horns. The Horns have been silenced for the most part since the injunction.
- Person of Interest /Situational Awareness [REDACTED] identified on Wellington St. – leader of the [REDACTED] [REDACTED] – was [REDACTED] Was seen on Wellington banging empty gas cans together in the overnight hours, marching with Canadian flag (on a hockey stick no less). [REDACTED] is a staunch anti public health advocate. M/W 25 years, dirty blond hair, beard, wearing Canadian tuxedo, with overalls and fur hat (classic).
